

RII20915

Certificate II in Drilling Operations

This flyer is specific to the Driller's Assistant Pre-Industry Training Program and is suitable for those wanting to work in the Drilling Industry.

Australasian Drilling Institute is delivering a nationally recognised training program to enable you to start your career in the Drilling Industry. The RII20915 Certificate II in Drilling Operations - Drillers Assistant Pre-Industry Training Program is achieved by using flexible online learning, practical workshops and technical assessments, carried out on our own drilling rig.

This course is suitable for people wanting to work in the minerals/hard rock drilling industry. **NO PRIOR EXPERIENCE** is required to attend this course. Students will gain the skills, knowledge and practical experience required to work safely and efficiently on drilling rigs as a Drillers Assistant.

Student to supply:

- Personal Protective Equipment (Lace up Safety Boots, long sleeved high visibility shirt, long pants safety helmet, safety glasses and safety gloves).
- A drug and alcohol clearance prior to the practical and rig assessment.

Cairns Office
27 Aeroglen Drive
Aeroglen QLD 4870

Contact us for more information on enrolment procedures. For detailed information on policies, subsidies, exemptions, pre-requisites, withdrawals, cancellations, credit transfers and RPL please refer to our terms and conditions found on our website at www.drillinginstitute.com/Disclaimer.pdf

Training Delivery

Online Learning Phase

Time frame: 18 hrs. (approx.)
With the support of our staff, you will receive access to our interactive online learning materials. Audio and visual components will help guide you through the theory assessment at the end of each subject.

Practical First Aid and Standard 11

Time frame: 2 days
Learn or refresh your First Aid skills and complete your Standard 11 Surface induction (a safety requirement for gaining work in most Queensland mine sites)

Practical Rig Experience and Assessment

Time frame: 5 days
Gain essential hands-on experience and training in all you have learnt in the classroom. Work on and around the rig and see it in action. This is also, where the final assessment occurs.
